Water closet (1.6 gpf) flushometer tank, private installation	3.5	Footnote d
Water closet (3.5 gpf), public installation	6	Footnote d
Water closet (3.5 gpf), private installation	4	Footnote d

For SI: 1 inch = 25.4 mm, 1 gallon = 3.785 L.

<sup>a</sup> For traps larger than 3 inches, use Table 709.2

<sup>b</sup> A showerhead over a bathtub or whirlpool attachments does not increase the drainage fixture unit value.

<sup>c</sup> See Sections 709.2 through 709.4 for methods of computing unit value of fixtures not listed in Table 709.1 of rating of devices with intermittent flows.

<sup>d</sup> Trap size shall be consistent with the fixture outlet size.

<sup>e</sup> For the purpose of computing loads on building drains and sewers, water closets, or urinals shall not be rated at a lower drainage fixture unit unless lower values are confirmed by testing.
